- ✓ **CUSTOMIZED TO ENSURE A PERFECT SEAL**
- ✓ **LONG-LASTING AND LOW-MAINTENANCE**
- ✓ **GALVANIZED STEEL MOUNTING BRACKETS**

SERIES 0201 *THE PERFECT SOLUTION*

The Platinum Series is our premium line of products. The product line features exclusive product features and enhanced performance.

Ask about upgrading!

Designed to work best where doors are over 9' H and or where trailers vary in height, the 0201 is an economical way to form an air tight seal between the building and trailer for dock openings up to 10' W x 12' H. For added versatility, the Series 0201 is also available with an adjustable head curtain that can be easily positioned by one person from inside the building by means of rope and pulley after the trailer is in position. The resilient foam pads can be covered with a large selection of tough abrasion resistant fabric, creating a tight seal that blocks foul weather, insects and dust, while saving money on energy costs. The Series 0201 Dock Seal will also protect personnel, product and equipment while increasing comfort, safety and productivity.
