- ✓ **INCLUDES DUAL SIDE-BY-SIDE HOOK ARRANGEMENT (INCREASES THE SUCCESSFUL ENGAGEMENT RATE)**

LPR35 TRUCK RESTRAINT

The LPR35 vehicle restraint safety system was designed to accommodate vehicles fitted with very low rear impact guards. The stepped hook design provides dual locking positions and features a 35,000 LBS restraining capacity. The vertical restraining range of the LPR35 is 8-3/4" to 26". The rugged structural steel guard protects the vehicle restraint from accidental impact caused by trucks and yard cleaning equipment. A high visibility two-way communication system provides communication between the dock attendant and the vehicle operator.

The Platinum Series is our premium line of products. The product line features exclusive product features and enhanced performance.
